WHAT IS SOLINK?

Solink is transforming conventional data into 'smart' data. Solink connects and synchronizes brick-and-mortar business systems like video + Point of Sale data, to create insight into loss prevention, security, and operations issues. We find new and powerful ways for businesses to get real value from the data and footage created daily by their standard systems.

We're one of Ottawa's fastest growing companies. We're not just a tech and security company - we are rapidly evolving the way that we use and think about video security, data analytics and technology. We're enhancing the status quo to positively impact clients and customers' businesses.

We're on a steep growth trajectory, which means lots to do, lots to learn, and lots to experience! What an exciting adventure ahead - and our Solinkians make the greatest travel companions...

Solink thrives because of our team; we know that in our business and in our daily work, people make all the difference. We're looking for people who are driven by curiosity, hungry to innovate and striving to make an impact.
