Job Description

We are seeking a meticulous and skilled Data Quality Specialist to join our dynamic team. The ideal candidate will ensure the accuracy and integrity of automated and manual data reports, assist in automating data processes, manage client change requests, develop dashboards, and create data pipelines for automated data streaming into data lakes.

Key Responsibilities:

- Validate and ensure the accuracy of automated and manual data reports.
- Use pandas and other data analysis tools to clean and process data.
- Handle change requests for existing automated reports.
- Collaborate with the team to automate new reports based on client requirements.
- Develop and maintain dashboards for data visualization using tools like Tableau, Power BI, or similar.
- Create and manage data pipelines for automated streaming of data into clients' data lakes.
- Ensure consistency and reliability of data sources for manual reports.
- Conduct regular data audits to maintain data integrity.

Requirements:

- Proficiency in using pandas for data analysis and manipulation.
- Strong analytical skills and attention to detail.
- Experience in data validation and ensuring data accuracy.
- Ability to manage and prioritize multiple tasks and requests.
- Familiarity with data automation processes and tools.
- Experience in developing dashboards using tools like Tableau, Power BI, or similar.
- Knowledge of creating and managing data pipelines.
- Excellent problem-solving skills.
- Strong communication skills to interact with clients and team members.
- Experience with other data analysis tools (e.g., SQL, Excel) is a plus.
- Bachelor's degree in a related field (e.g., Data Science, Computer Science, Statistics) or equivalent experience.

Preferred Qualifications:

- Experience in a similar role within a fast-paced environment.
- Knowledge of additional programming languages (e.g., Python, R).
- Understanding of database management, data warehousing, and data lakes.
- Familiarity with reporting tools (e.g., Tableau, Power BI, Looker).

Why Work With Pillway?

Joining Pillway means becoming part of a pioneering team dedicated to revolutionizing digital pharmacy in Canada. Here's why you should consider us:

- **Hybrid Work:** Enjoy the flexibility and comfort of working from home.
