Job Description

___

ContactMonkey helps businesses boost growth and productivity through their internal communications. With our powerful tech stack, businesses can create, send, and track HTML emails within Outlook or Gmail. Today, ContactMonkey's software is being leveraged within the world's leading enterprise organizations, including brands like Rogers and IKEA! We are pumped to be the best-of-breed for internal employee communications.

Ranked as Globe and Mail & Deloitte Technology Fastest-Growing Canadian business this year, the people we hire are key drivers of our success! With ContactMonkey you have the opportunity to make a significant impact while advancing your career. Our team is constantly growing and this means our Talent team is always on the lookout for exceptional people to help us deliver.

We understand that joining a team is one of the most important decisions you make 🙏, and adding a team member is one of the most important decisions we'll make. Through our process, we want you to get to know us and understand how you approach problems, learn, and what motivates you!

About the job

We are looking for a Vue Developer who is as passionate about creating a better world of work as we are. With your expertise, you will be pivotal to bettering employee engagement and talent retention within our global client roster as we continue to build out and refine our product.

We are interested in talking to people who:

• Have 3-5 years experienced with development using Vue/Nuxt or other modern component based frontend frameworks (React/Svelte)
• Have excellent oral and written communication skills
• Are Interested in driving technical projects from inception to delivery
• Are obsessive about testing and quality of work
• Proud to write testable, modular, maintainable, simple, and well-documented code
• Are highly proficient in CSS
• Able to create features based on requirements and designs
• Understand modern web standards and best practices
• Have strong JavaScript/Typescript skills
• Are able to work collaboratively and independently
• Are comfortable with agile development
• Are interested in working at a high growth startup
• Understand the nuances and challenges related to scale
• Are able to bring past experiences and expertise to improve our process and architecture

What Sets You Apart:

• Deployed full-stack production applications to the cloud
• Worked with Headless components and TailwindCSS
• You spend time coding hobby projects
• Experience with Ruby on Rails and others such as Node and Go
• A track record of great teamwork and the ability to work independently and drive projects to completion

Our Stack:

• Vue 3
• Nuxt 3
• Typescript
• TailwindCSS
• Ruby on Rails
• Go
• AWS
• Docker
• Netlify

Why ContactMonkey?

We offer...

🩺 Comprehensive benefits program (health & dental)!
💰 Monthly stipend for personal and professional growth!
📈 Stock option plan!
🏖️ Generous vacation package!
🙌 1 personal day to do as you please!
☀️ Summer hours in July and August!
🌎 Work from anywhere in the world for 6 weeks!
🏢 Downtown Toronto office for a change of workspace routine!
🤝 A supportive team who celebrates successes and tackles challenges together!

Our team is reimagining what it means to send and receive valuable communications to an entire workforce. By joining ContactMonkey, rest assured our wickedly smart, high-performing team members will challenge you to learn and grow every day. We value great work and great ideas in everything we do. We're looking for talented people who want to grow their career with us while making an impact with groundbreaking ideas.

Equal Employment Opportunity

ContactMonkey does not discriminate in hiring or terms and conditions of employment because of an individual's race, ancestry, colour, place of origin, religion, gender, gender identity, national origin, citizenship, age, disability, sexual orientation, family status or marital status, or any other protected category recognized by provincial or federal laws.

Should you require any accommodation, please inform us and we will work with you to meet your accessibility needs. For any accessibility-related assistance, requests for information in accessible alternative formats or to report any accessibility problems, please share in your application.
