## Company Overview

At Motorola Solutions, we're guided by a shared purpose – helping people be their best in the moments that matter – and we live up to our purpose every day by solving for safer. Because people can only be their best when they not only feel safe, but are safe. We're solving for safer by building the best possible technologies across every part of our safety and security ecosystem. That's mission-critical communications devices and networks, AI-powered video security & access control and the ability to unite voice, video and data in a single command center view. We're solving for safer by connecting public safety agencies and enterprises, enabling the collaboration that's critical to connect those in need with those who can help. The work we do here matters.

### Aperçu de l'entreprise

Chez Motorola Solutions, nous sommes guidés par un objectif commun: aider les gens à donner le meilleur d'eux-mêmes dans les moments les plus importants - et nous sommes à la hauteur de notre engagement en créant des solutions sécurisées. Parce que les gens ne peuvent donner le meilleur d'eux-mêmes que lorsqu'ils se sentent en sécurité et qu'ils le sont. Nous créons des solutions sécurisées en développant les meilleures technologies intégrées à travers les écosystèmes de sûreté et de sécurité. Qu'il s'agisse d'appareils et de réseaux de communications essentiels, d'une sécurité vidéo et d'un contrôle d'accès basés sur l'IA ou d'une capacité d'unir la voix, vidéo et les données dans un seul centre de commandement. Nous créons des solutions sécurisées en connectant les agences de sécurité publique et les entreprises, permettant ainsi une collaboration essentielle entre les personnes qui ont besoin d'aide et les personnes pouvant aider. Le travail que nous accomplissons ici est primordial.

## Department Overview

Our IT organization has a critical role in driving extraordinary business results. Through a strong partnership with other areas of our business, we bring innovative thinking to every conversation and deliver with integrity. We're looking for people who bring great ideas and who make our partners' ideas better. Intellectually curious advisors (not order takers) who focus on outcomes to creatively solve business problems. People who not only embrace change, but who accelerate it.

## Job Description

This position is for a Project Manager in the IT Program and Portfolio Management Office, supporting our Video Security and Analytics (VS&A) team. This Project Manager will have an opportunity to work on a variety of projects for the growing VS&A business. This high visibility role is an ideal opportunity for someone with excellent leadership and communication skills.

### Scope of Responsibilities / Expectations

- Collaborate with IT leadership, business representatives, and project leads to define feature content for prioritized projects.
- Drive alignment of feature content across businesses, aligning with the strategic goals of each business and the company at large.
- Overall responsible for sprint planning & sequencing - driving the decomposition from strategy to feature to user story.
- Partner with scrum masters to drive completion of sprint-level activities, identifying and removing roadblocks and negotiating dependencies across teams.
- Manage schedule and budget, working to ensure proper resource capacity to meet demand.
- Responsible for all project communication, action item management, risk identification and management.
- Responsible for keeping the project data updated on a regular basis as well as providing input as needed for senior leadership review

### Desired Background/Knowledge/Skills

- Experience managing ERP (SAP, Oracle) and Salesforce projects
- Managing large cross functional projects and global teams worth at least \$1Million
- Analytical skills - ability to perceive and analyze problems, develop alternatives and recommend sound decisions. Ability to plan and organize work across multiple projects.
- People skills - a combination of skills including an ability to ask penetrating questions, detect unstated assumptions and resolve conflicts. Strong collaboration & active listening skills. Very strong team player, able to foster teamwork and a positive working environment to the project team.
- Project management skills – ability to drive & lead meetings independently, create and execute project plans, proactively manage risks/issues, maintain compliance with company project management processes
- Communication skills - ability to drive productive conversations, independently maintain project documentation, drive follow-up on open actions. Strong written and oral communications skills.
- Self motivated and able to work independently, a strong aptitude to learn, and an ability to work in a fast-paced, demanding, and rapidly changing environment
- Any previous Motorola work experience or experience in managing IT projects for a similar industry is preferable
- Proficient in basic Google Applications (Sheets, Docs, Slides) as well as Atlassian application (Jira and Confluence)
- PMP certification and/or other project management certification is preferred
- Experience in Acquisition Integration or Data Management projects a plus
- Bachelor's degree in a STEM field from an accredited university.
- 4+ years experience with project management practices and methodologies.
- Agile experience required

**Note: Candidates must reside near the Vancouver Area.**

Salary Range: \$115,000 CAD - \$120,000 CAD

### EEO Statement

Motorola Solutions is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion or belief, sex, sexual orientation, gender identity, national origin, disability, veteran status or any other legally-protected characteristic.

We are proud of our people-first and community-focused culture, empowering every Motorolan to be their most authentic self and to do their best work to deliver on the promise of a safer world. If you'd like to join our team but feel that you don't quite meet all of the preferred skills, we'd still love to hear why you think you'd be a great addition to our team.

We're committed to providing an inclusive and accessible recruiting experience for candidates with disabilities, or other physical or mental health conditions. To request an accommodation, please email [ohr@motorolasolutions.com](mailto:ohr@motorolasolutions.com).

Motorola Solutions adopte, favorise et promeut les principes de diversité, d'équité et d'inclusion. Nous encourageons et accueillons les candidatures de toutes les personnes qualifiées, quelles que soient leur race, origines ethnique, religion ou croyance, orientation sexuelle, identité et expression sexuelle, statut d'anciens combattants ou tout autre statut protégé par la Loi.

Nous sommes fiers de notre culture axée sur les personnes et les communautés, encourageant ainsi chaque Motorolan d'être la version la plus authentique de lui-même dans ses responsabilités afin de tenir la promesse d'un monde plus sécuritaire.

Si vous souhaitez vous joindre à notre communauté mais croyez que vous ne possédez pas toutes les exigences requises pour le poste convoité, nous aimerions tout de même connaître les raisons pour lesquelles vous pensez être un excellent candidat pour notre équipe.

Nous offrons également des mesures d'adaptation pendant toutes les étapes du processus d'embauche afin de favoriser l'inclusion des personnes vivant avec un handicap physique et/ou mental. Si vous avez besoin de mesures d'adaptation, svp nous faire parvenir un courriel à [ohr@motorolasolutions.com](mailto:ohr@motorolasolutions.com).
