## Job Description

---

At Montra, we are creating a magical video creation experience, and design is at the heart of our mission. As our first product design hire, you will work closely with our CEO to wireframe, design, and shape the user experience and interface beyond our initial MVP. You will have the autonomy to take risks and challenge norms well beyond the typical video editor. Your design decisions will rely on data and intuition, and you must have excellent taste and care about crafting the little details that delight our users.

## What You'll Do:

- Work closely with our CEO to build upon our existing distinct product and brand guidelines
- Own the design process from start to finish, including wire-framing, prototyping, and developer walk-through
- Frequently iterate on designs based on internal and external feedback
- Simplify complex design problems into beautiful user experiences
- Transform high-fidelity mockups into prototypes with robust animations and hover states using Figma.

## Who You Are:

### Must Have

- 2+ years of UI/UX design experience
- Proficient in working collaboratively in Figma, creating wireframes, components, high-fidelity designs, and prototyping products using hover states and animations.
- Obsessed with crafting simple and gorgeous user experiences
- A robust portfolio of past work/projects demonstrating your ascetic and abilities to simplify complex problems
- Excellent verbal and written communication skills

### Great To Have

- Deep interest in the future of video as a communication method and how we'll build products that shape that future
- Self-motivated person who can work individually and as part of a team
- Ability to learn and adapt quickly in a dynamic environment

## How to Apply:

At Montra, the best team members come from diverse backgrounds and bring unique experiences to work. We don't care where you came from, where you went to school, or what you do. We simply care about your grit, work ethic, and passion for video as a mechanism for sharing ideas. While the makeup of our team is not all the same, we are all bonded by our belief that a world where more people can create videos they're proud of is a world we all want to live in. If that sounds like a world you want to help create, we would love to hear from you. You're welcome to apply by emailing [jobs@montra.com](mailto:jobs@montra.com).
