Job Description

Helcim is searching for a talented and passionate Product Manager to join us on our mission to become the world's most loved payments company.

As a Product Manager you will be a key player in propelling our cutting-edge products to new heights in the market. Your contributions will be instrumental in not only attracting and retaining users but also enhancing our product's overall performance. You'll be an integral bridge between product development, accounting, data analytics, design, and marketing, ensuring our products continuously evolve to meet our merchants needs.

If you're ready to make a real impact, push boundaries, and be part of a team that values innovation and user-centric solutions, then Helcim is the place for you. Join us and help shape the future of payments!

What you'll do:

- Build and maintain infrastructure for money movement between our financial partners, Helcim, our merchants, and our merchants customers.
- Collaborate cross-functionally with multiple product teams to support the release of new payment rails as well as new financial services across each geography and industry we serve.
- Translate vision & strategy into a clear product roadmap to drive growth.
- Create end-to-end experiences for both internal facing teams as well as merchants within our platform.
- Engage with third party banking or technology partners to add additional capabilities to our platform.
- Analyze user behavior, conduct market research, and leverage data-driven insights to identify growth opportunities and pain points.
- Serve as a liaison between the development team and internal/external stakeholders.

Who you are:

- Excited by the opportunity to join a growing & scaling company and the unique challenges that it poses.
- Have the ability to foster strong relationships with stakeholders at all levels within the organization
- A deep empathy for users and the ability to put the customer at the center of all product and decisions.
- Demonstrates a high level of ownership and desire for continuously learning.
- Champions the collective success of the team over individual accomplishments, actively seeking input and feedback from team members to drive product innovation and improvement.

Qualifications:

- Have a minimum of 3+ years of relevant product management experience, preferably in the payments, fintech, or SaaS space.
- Bachelor's degree in a relevant field (e.g., engineering, business, technology) .
- Are able to drive cross-functional product alignment by influencing without authority.
- Are empathetic and are able to understand the experiences of our merchants.
- Proficiency with data analysis tools and familiarity with SQL or other data querying languages.
- Knowledge of startup industry trends, funding cycles, and emerging technologies.
- Have experience in a start-up/growth environment and are excited by the prospect of disproportionately impacting direction and processes.

Why Helcim?

Helcim is a payments company that gives small and medium sized businesses a better way to accept debit and credit cards. Thousands of merchants across Canada and the US choose Helcim for their payment needs because of our excellent customer service and innovative software solutions. We won the Canada's Most Admired Award for Corporate Culture in 2021, ranked number 91 on the Globe and Mail's 2019 list of Canada's Top 400 Growing Companies, and we have big plans to redefine the payments industry. To accomplish this, we need a talented team of people who are passionate about working in fintech. Learn more about working at Helcim in our culture book [The Way of the Helcim](#).

At Helcim we build teams of engaged, caring and intelligent people. In return we provide an environment where you'll be excited to come to work each day and tackle challenges with your colleagues. As part of our team you'll receive amazing benefits including a competitive salary, paid health benefits, stock options and generous vacation time. You'll also enjoy company provided snacks and team lunches to keep yourself fueled and the opportunity to recharge and connect with your team members at company social events.

We invest a lot of time and energy imagining and creating a company and culture that encourages discussion, the trade of ideas, and the execution of amazing products and services. We're friendly and collaborative, working together to achieve big goals. If you want to join our team and feel you can contribute to the growth and success of our company - we want to hear from you!
